TRA Events Sustainability Statement

Travel Risk Academy Sustainable Events Statement

At the Travel Risk Academy, we are committed to hosting events that uphold the highest standards of environmental stewardship, social responsibility, and economic sustainability. We recognise that our events have an impact on the planet and the communities we serve, and we are dedicated to minimising this impact through thoughtful planning and action.

Our promise to our planet:

We promise to only run events with purpose and outcomes that aren't readily achievable through online formats or experiences. We will use technology to be as inclusive as possible and where we run an in-person event, they will be sustainable, accurately measured and offset accordingly.

Environmental Stewardship

We strive to reduce our environmental footprint by selecting eco-friendly venues, promoting sustainable transportation options, minimising waste, and conserving energy and water. Our goal is to create events that not only meet the needs of today but also ensure a healthy planet for future generations.

Social Responsibility

Inclusivity and accessibility are at the heart of our event planning. We ensure that our events are welcoming and accessible to all, regardless of ability, background, or dietary preferences. We actively engage with local communities to support social causes and create a positive social impact through our events.

Economic Sustainability

We are committed to supporting local economies by partnering with local businesses and suppliers. We practice financial prudence to ensure that our events are economically viable and contribute to the long-term sustainability of our organisation and the communities we serve.

By integrating these principles into every aspect of our event planning and execution, we aim to set a standard for sustainable events. We invite our partners, participants, and stakeholders to join us in this commitment to sustainability, working together to make every event a step towards a more sustainable future.
